We are proceeding with the development of enforcement cases for non-priority sites; S. P. Oliver, Olin - Ellender Ferry, and Olin - North Little Rock. Even though we have delegated authority to issue administrative orders, it is limited by the requirement for OWPE concurrence.

With all sites, priority and non-priority we will begin preparing all administrative order cover letters for the Regional Administrator's signature. These letters will be sent with the orders to OWPE for concurrence prior to their issuance. OLEC has delegated their concurrence authority on these orders to Regional Counsel.

The step-by-step plan for implementing our strategy for these sites can be found on the 12-month, 3-month and 1-month workplans.

Sam
to this in response to
a Control?
In any case I would like
to be brief on all of
the Olin AOs, ASAP.
